Orangeburg - Calhoun Technical College

Jacqueline Lynsherrlye Walters
Director of Assessment

2004 Assessment Summary - June

Attendance and Scheduling

The staff scheduled 197 prospective examinees for June of 2004. 93% of those who were scheduled chose the COMPASS measurement. Other tests that absorbed the staff's efforts to schedule were the HOBET, Kuder, and ASSET with percentages of 5, 1.5, and 1 respectively. A significant amount (61.4%) attended the COMPASS test sessions. This representation is proportionately lower than the attendance of last month. The HOBET declined 45% under last month's attendance. Its interest fell 54.5% as only 10 prospective examinees scheduled it. This is not a surprise as the Respiratory and MLT programs have so few slots.

Academic Placements

13.6% of the 103 mathematical placements achieved a score of at least 49 and over 50% of them ranged 29-48. There was a 6.5% increase over last month's examinees as 43.8% scored at least 80 on the Reading component. 48.6% of the testees scored between 36 and 79 and 4.8% did not achieve the minimum entry score. 58% of the Writing placements require remediation in English, which is representative of a slight increase as compared to those of May. 16% of the 105 Writing Skills placements were into Eng 155 and 22% were into Eng 101.

Selective Admission Tests

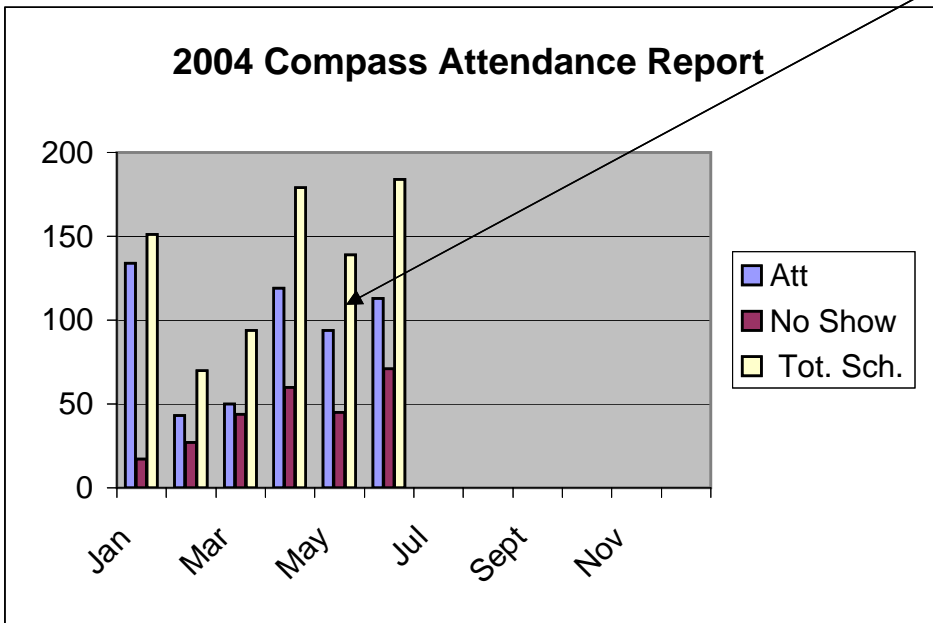

The twelve examinees on the Health Occupations Basic Entrance Test (HOBET) averaged 54.9% on the Composite, 60.2% on the Math, and 48.9% on the Reading. These results are slightly lower than those reported on last month. 41.7% of them met and exceeded the score criterion with averages of 69.8% Composite, 65.8% Math, and 73% Reading. The applicant pool was, therefore, increased by 5 for MLT and Respiratory.

Other Factors

The retests and lottery influence report an increase of less than two percent of those of last month. I will report evaluative measures on the 1st of the month in a separate file as you requested.

2004 Compass Summary Report					
Month	Att	No Show	Tot. Sch.	% Att	
Jan	134	17	151	88.7	
Feb	43	27	70	61.4
