Comments / Spring 2004

TRMC: 4 West / NUR 111 / Instructor: S. Chaplin

Question: Please offer any suggestions to improve the learning process at the clinical agency.

My experience in the O.R. was wonderfully insightful and educational due to the nursing staff. Because I didn't know their usual procedure I did not follow a surgeon; accompanying the circulating nurse and the team work of nursing staff provided a great experience.

I know this sounds harsh but only a very few nurses on 4W even care that freshman nurses are there. It is hard to give reports. I have learned a lot because of Ms. Chaplin and also about how I don't want to be as a nurse. We are instructed to relay assessments to our primary nurses - it is very frustrating when they treat it like it is nothing (when your concerns are also concerns to your instructor - and she wants to know what is going to be done). This is almost every clinical. I see things going undone - or they want you to do your share plus so they don't have to be bothered. The learning opportunities are there but the staff I don't feel is receptive (only a few).

4 West is a great floor to work on. It enables you as a student to learn so many things.

Parking provided closer to entrance of building to make student feel safe while walking to the hospital.

TRMC: Postpartum / NUR 211/ Instructor: C.Varn

Question: Please offer any suggestions to improve the learning process at the clinical agency.

Great experience.

Mrs. Varn is AWESOME!! Should not subject students to Cindy _____, RN - not a positive role model.

Wonderful experience!

Comments / Spring 2004

TRMC:Newborn Nursery/ NUR 211/Instructor: G.Bishop

Question: Please offer any suggestions to improve the learning process at the clinical agency.

An awesome instructor for the clinical with the patience of Job.

I prefer bigger patients though experience was great.

Mrs. Bishop is a wonderful clinical instructor! I loved learning from her.

Good experience.

The newborn nursery was fun and the staff was great. The only thing that I would change is to have more babies.

Comments / Spring 2004

TRMC: L&D / NUR 211/ Instructor: L. Murphy

Question: Please offer any suggestions to improve the learning process at the clinical agency.

Mrs. Murphy was so patient and considerate; she is a wonderful instructor that looks out for her students. I appreciate her dedication! "Birthin" babies wasn't so bad after all - ha ha!

Staff could be a little more receptive to students instead of making them feel like they are in the way.

Awesome clinical and instructor. I really will someday work in L&D after getting my feet wet in med-surg for a few years.

I will never forget Mrs. Murphy. She made us test our limits and realize that "just good enough" isn't good enough.

Great clinical. Learned a lot from Mrs. Murphy. Didn't even care that we didn't get lunch!!

Worthwhile experience.

My experience in L&D was fun and exciting because I got to see live births but the staff was not as receptive to students. I could have understood if they were packed with screaming women but on one occasion there weren't any. Mrs. Murphy did a very good job at getting us what was needed.

Staff was helpful. I felt like part of the team.

Comments / Spring 2004

TRMC: 4 West / NUR 215 / Instructor: S. Chaplin

Question: Please offer any suggestions to improve the learning process at the clinical agency.

This instructor is one in a Billion with a B.

I appreciate not having to do complete AM care, etc. to all 4 patients. It allowed me to progress as a senior and focus more on the leadership experience. Mrs. Chaplin is an extraordinary instructor, an assest to the College!

This unit is so much more clinical oriented for students than it used to be.

4 West staff is mean, rude, and unhelpful.

Comments / Spring 2004

TRMC: ICU / NUR 215 / Instructor: E. Pauling

Question: Please offer any suggestions to improve the learning process at the clinical agency.

Wonderful staff! Excellent experience! Keep up the great work!

Great learning experience. I did not think I would like it but I did. Next year try to get everyone in to ICU before you have to decide where you want to work!

Students should be given more than 2 clinical days in ICU because the time spent there provides a better learning opportunity, even more so than med-surg.

I really enjoyed this clinical.

I enjoyed going to the ICU. It was slow on the 2 days I went but Mrs. Pauling took us to CCU so we could see how the vent works. She found opportunities to do skills for us and went out of her way to show us the different machines that are usually in ICU.

Great experience. Learned a lot.

Comments / Spring 2004

TRMC: 3 East / NUR 215 / Instructor: S. Chaplin

Question: Please offer any suggestions to improve the learning process at the clinical agency.

3 East is an awesome floor to be on for clinicals. The only problem I have is walking in the dark to the hospital.

Great floor. I learned a lot from Ms. Chaplin on organization and leadership.
