PROGRAMS AVAILABLE

ASSOCIATE DEGREES

Associate in Arts
Associate in Science

CERTIFICATE

General Studies

If you are planning to transfer to a four-year college or university, enrolling in our Associate in Arts or Associate in Science program can help you reach your goals.

More than 80 courses offered at OCtech will transfer to any South Carolina public college or university and to most private colleges in the state. You can take any number of courses, from just a few to an entire associate degree.

An Associate in Science degree is for students interested in STEM courses like calculus, biology or chemistry.

Advantages of starting your college career at OCtech include:

- Save thousands of dollars per year compared with the tuition costs at a typical in-state four-year institution.
- Experience a smoother transition from high school to college academics.
- Enjoy small classes and one-on-one interaction with instructors.
- Articulation agreements and bridge programs with several S.C. colleges and universities make transferring easy.
